Graduation Status Check for Students Registered for Graduation on Semester 2/2022

- Students who have registered for graduation during Semester 2/2022 may check their graduation status on website > <https://cmu.to/reggrad> from May 4, 2023 onwards.

Suggestion about Courses with Prerequisites

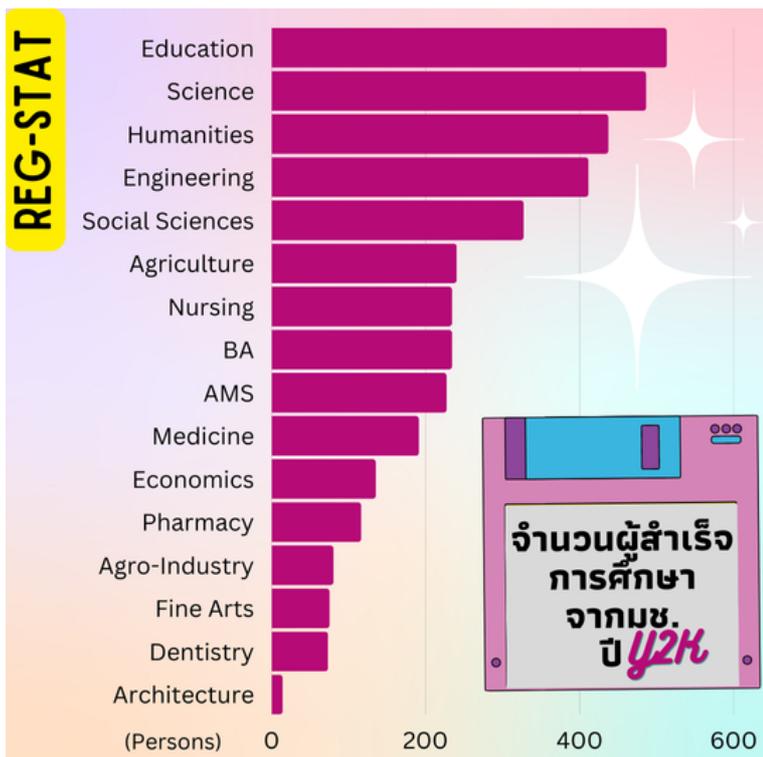

When you enroll in course(s) with prerequisite, a colored tab will show up under the course's name, which provides initial **caution** about the enrollment. In some special cases, enrollment with unmet prerequisite may be approved by the faculty. Let's explore what each colored tab means.

GREEN Prerequisite met

207106 Phys eng and agro stud
ii
ผ่าน PRE 207105

RED Prerequisite unmet

206162 Calculus for
engineering 2
ไม่ผ่าน PRE 206161

If the prerequisite is unmet, but the department/faculty gives consent to the enrollment, the **red** tab will still appear until the enrollment is finalized. However, if the enrollment is not approved, the course will be unlisted from the finalized enrollment.

Faculty of Education had the largest number of graduates for the year 2000. Which faculty will win the title this year?
